Summary

React Web Developer with expertise in creating responsive web applications using React, Redux, and Tailwind CSS. Experienced in developing user-friendly interfaces and integrating with backend services. Strong problem-solving skills, demonstrated through projects like e-commerce platforms. Team player with a focus on clean, maintainable code.

Skills

Languages: HTML, CSS, JavaScript

Libraries/Frameworks: React, Tailwind CSS, Node.js

State Management: Redux , Context API

Tools: Git, GitHub

Experience

Frontend Developer

Remote

Web masters

Feb 2025 – Jul 2025

- Contributed to building EduPress, a complete e-learning platform
- Developed Admin Dashboard to manage students, lessons, exams, and questions
- Focused on creating a user-friendly interface and efficient management features

React web developer

Hybrid

Digital Egypt Pioneers Initiative (DEPI)

Apr 2024 – Oct 2024

- Contributed to Tradesphere, an e-commerce platform with user-friendly design
- Developed authentication pages, user profiles, and order history features
- Enhanced the admin panel for managing orders, customers, reviews, and carousels

Projects

BookNest

github.com/hamishisham/BookNest

- A hotel booking web application that allows users to search, book, and manage hotel stays.
- Built the entire front-end, including hotel listing, booking form, and admin dashboard for managing users, bookings, and hotels.
- Tools Used: React, Material UI (MUI), Context API

EduPress

github.com/Mohamed-Fouad-Nassar/EduPress

- An e-learning platform that connects students and teachers, manages courses, exams, and questions.
- Implemented the full admin dashboard to manage students, exams, and questions with form validation and dynamic UI components.
- Tools Used: React, shaden/ui, react-hook-form + zod, lucide-react

Portfolio Website

github.com/hamishisham/portfolio

- A personal portfolio website to showcase my recent front-end and full-stack projects in a responsive and modern layout.
- Designed and developed the full UI with smooth animations and interactive sections.
- Tools Used: React, Tailwind CSS, Framer Motion, Shaden UI, React Icons

Tradesphere

github.com/HamadaReda/Tradesphere

- A B2B e-commerce platform for trading and managing digital product listings, user profiles, and transactions.
- Worked on the authentication flow, profile pages, and several admin management features.
- Tools Used: React, Tailwind CSS

Education

Zagazig University

Sept 2016 – May 2021

BS in Computer and Systems Engineering

- **Coursework:** Computer Architecture, Comparison of Learning Algorithms, Computational Theory

Certifications

Web Development Challenger Track - Coursera

Oct 2020

Python for Data Science, AI & Development - Udacity

Nov 2022

Python for Everybody - Coursera

Sep 2020
